• The flooring shall be Polyflor Prestige PUR, as manufactured by Polyflor Ltd.
  of Manchester, England.
• The flooring shall be flexible PVC sheet flooring in 2.0mm thickness.
• It shall be homogeneous and monolayer in construction, and shall be manufactured
  by calendering and pressing, to ensure a dense, smooth surface and non-directional
  design.
• The flooring shall incorporate a specially formulated polyurethane reinforcement,
  to significantly reduce maintenance costs.

• The flooring material shall conform fully with the requirements of EN 649/
  EN ISO 10581.
• The flooring must have a Use Area Classification of 23/34/43, as defined in
  EN 685/EN ISO 10874.
• In respect of flamespread, the flooring shall have been fully tested to EN 13501-1
  and certified as having Class Bfl-S1.
• The flooring shall have been fully tested to ASTM E648 and certified as having
  passed with a Class 1 rating, making it suitable for use in institutional, commercial
  and public buildings. The flooring shall also have been tested to ASTM E662 and
  have a result of ≤450.
• With regard to EN 13893 for slip resistance, the flooring shall be classified D5,
  making it suitable for use in areas which are predominantly dry, but with occasional
  spillage.
• The product must have been fully tested for abrasion resistance to the Frick Taber
  test EN 660-2 and be in abrasion group T, as defined in EN 649.
• With regards to EN ISO 10581 the product shall be classified Type I.
• The flooring must possess a valid Aigrément certificate when laid in accordance
  with the instructions of Polyflor, with coved skirtings and welded joints.
• This product does not accumulate static charges above 2kV and is classified as
  ‘antistatic’ when tested to EN 1813. For specialist applications where there is a
  requirement to dissipate the electrostatic charge, see the Polyflor ESD product
  ranges.
• The flooring must be available in 2.0 metre width, to minimise the number of joints.
• In respect of light fastness, the flooring shall have been fully tested to ISO 105-B02
  Method 3 and obtain ≥6.

• Polyflor homogeneous PUR flooring ranges are compatible for use with the most
  commonly used alco-based hand gels and are suitable for steam cleaning on a periodic
  basis. For clarification and for information regarding handling and installation,
  adhesives, maintenance, applications, chemical resistance and product warranty
