• The flooring shall be Polyflor Colonia PUR, as supplied by Polyflor Ltd. of Manchester, England.
• The flooring shall be flexible PVC tile and plank flooring in 2.0mm thickness.
• It shall have the following laminated construction: circa 0.2mm clear PVC wear layer, and circa 0.07mm print film layer, and circa 1.73mm backing ply.
• The flooring shall feature a high quality, cross-linked polyurethane reinforcement to provide superior cleaning benefits, life cycle maintenance savings and optimum appearance retention.

• In accordance with EN 649/EN ISO 10582, the in-use classification must be at least 22 as described in EN 685/EN ISO 10874: i.e. domestic areas with heavy use; commercial areas with low or intermittent use.
• In respect of flame spread, the flooring shall have been fully tested to EN 13501-1 and certified as having Class Bfl-S1, achieving the criteria EN AS 9239-1 ≤5kw/m2 and the mandatory requirement of EN ISO 11925-2 pass.
• The product is classed as DS (dry slip) when tested to EN 13983. It also achieves an R10 rating when tested to DIN 51130 and AS/NZS 4586.
• The product will feature a high quality, cross-linked polyurethane reinforcement to provide superior cleaning benefits, life cycle maintenance savings and optimum appearance retention.

• The product's weight should not be more than 3600g/m².
• In respect of light fastness, the flooring shall have been fully tested to ISO 105-B02 Method 3 as having a pass to ≥6.

• Polyflor Colonia PUR is suitable for use in any domestic situation.
• On-floor temperatures in conservatories can become quite high. It is strongly advised that, in such situations, a Polyflor recommended high temperature adhesive is used. For further information and advice on specific applications, consult Polyflor Customer Technical Services on +44 (0)161 767 1912, or email tech@polyflor.com.
