

# Office

**Mode:lina  
Poznań, Poland**

**PRODUCTS USED:  
Standard XL**

Black and white designs from Polyflor's Standard XL homogeneous sheet vinyl flooring range were used to create a modern and dramatic look for the new office of Mode:lina architectural practice.

As Mode:lina's team grew, they required a larger office space, so they chose a fully renovated townhouse situated in a trendy and fast developing Poznań neighbourhood of Jeżyce.

Standard XL flooring in Dove White and Black Panther were used side by side throughout the office space to create a simple yet dynamic effect with a monochrome palette. The flooring covers the two office spaces, the hallway, kitchen, toilet and meeting room area.
