The Camaro flooring collection of Luxury Vinyl Tiles (LVTs) has been developed with you and your home firmly in mind. Following extensive design, trend and performance research our experienced product designers have hand selected a collection of beautifully replicated wood, stone and slate floorcoverings, that will enhance any home interior.

Guiding you through the selection process for choosing your new floor, we provide you with all the inspiration you need to refine your home décor scheme. Browse through dozens of aspirational interiors and discover insider hints and tips. Be inspired by a wide range of high-design flooring layouts and ideas ranging from classic arrangements to more ambitious bespoke patterns that give your home a Creative Edge.

The Camaro collection provides enhanced durability due to the ultra-hard wearing, easy to clean product construction, making it ideal for any residential interior. Available in a range of authentic tile and plank sizes and supported by a versatile collection of inlay accessories, the number of creative combinations you can achieve is limitless.

Creating a stylish and individual floor for your home is now even easier. Whether you are looking to add details and highlights, mix and match multiple shades, or push boundaries with a bespoke design, it’s all simple to achieve with the Camaro Creative Edge guide.

To make choosing your new floor as straightforward as possible, every Camaro installation image shown has been given a design reference code for easy identification and a 1-3 star rating. These ratings have been developed to give you an indication of the complexity of each design, and the level of pre-cutting required.

The flooring designs shown throughout the brochure are only a selection of what can be achieved using Camaro Luxury Vinyl Tiles. If you have your own unique concept in mind, your flooring provider will be able to offer further advice.
Each of Camaro’s stunning wood designs effortlessly replicate the natural beauty and detailed timber variations found within individual planks, creating a warm and inviting space in your home. Each timber design features a carefully selected surface texture to further enhance its natural appearance, and is offered in a plank size suited to the wood species depicted. Presented within this brochure in a wide range of interior styles and design floor layouts, feel inspired by the array of authentic wood flooring designs Camaro has to offer.

**Cross Grain Marquetry Strips**
Running across the natural wood grain, these eye catching strips create a distinct effect when used individually or in varied combinations.

Design Tip: It is worth noting that although the Grouting Strips are ideal for the stone tiles and the Marquetry Strips suit the wood planks, they can be mixed and matched between tiles and planks to further create a unique look.

Note: As the Grouting, Marquetry & Cross Grain Marquetry Strips are cut from natural wood and stone designs, there will be variation in markings and decoration.

**Grouting Strips**
Typically laid between stone tiles, grouting strips can be used as a subtle close-to-tile colour addition to your floor, or you can select a lighter or darker shade to create a contrasting effect.

Highlighting room features

You may wish to create focal points within your home, such as highlighting an island unit or following the perimeter of your room. This can easily be achieved by utilising Camaro accessories or the Design Floor Service. For subtle additions, Grouting, Marquetry, Cross Grain Marquetry or Feature Strips can be inlaid as defining and demarcating lines. For bolder and more dramatic features, see the selection of our most popular border and corner designs below. Each of these are typically laid a plank width or cut tile distance away from the wall. Each design is available on special order in any Camaro colour combination. Border and Corner length and width will always depend on which design and shades you select. Your installer can provide further information on these options.

These are only a selection of our most popular borders and corners. If you have a particular design in mind consult your flooring provider.

All borders and corners are cut by Polyflor on a bespoke basis. Borders are typically supplied in 101 x 914mm lengths. Corners are 101mm square. Alternative sizes can be supplied.

Compass & Centerpieces

Motifs and Centerpieces are the ideal way to completely personalise your floor. From subtle floral highlights to dramatic geometric patterns, focal points bring a personal touch to your home.

HINTS AND TIPS

The following pages are designed to provide you with further product information and even more ideas, to help you create a beautiful and practical home.

Surface textures
Each Camaro product has been developed to replicate the beauty and feel of natural materials. The wood planks feature a variety of surface textures from a smoother wood grain to heavier and more rustic aged timber effects, matching the relevant wood species. The stone tiles incorporate smooth and sleek finishes, natural slate textures and riven stone effects. Window and interior lighting can pick up these surfaces textures as can bare feet, which all add to the authenticity of the floor.

Floor direction
The direction of the installed floor can also have a bearing on the overall aesthetic. As an example, to give the appearance of a natural timber floor the planks should be laid running against the supporting underfloor joists, as floor boards would be. Alternatively you may wish to run them on an angle or in a parquet floor feature, such as herringbone. The stone tiles can be utilised in a number of ways including straight laid, on angles and with accessories.

Polyflor at Home Blog
Bursting with design advice and fun interior discussions, our Polyflor At Home blog is another great resource to help inform and inspire your final flooring choice. We regularly post articles about design floors, trending interior topics and inspiring home makeovers, providing an invaluable guide on how to refresh your home.

RECREATE THE LOOK...

Polyflor have for many decades been recognised as a leading global manufacturer of high quality, high performance floorcoverings. We have demonstrated a high level of commitment and endeavour to minimise the impact of our products on the environment whilst maximising the performance benefits of our flooring throughout their entire life.

Camaro is 100% recyclable and can be recycled many times without losing any of its performance properties. It contains an average of 40% recycled material, and can be recycled via Recofloor, a vinyl flooring take-back scheme for recycling post consumer waste. Along with low VOCs, energy efficient manufacturing, long life and low maintenance it is clear why Camaro achieves BRE A+ rating for its LCA performance.

Choosing an environmentally preferable product from Polyflor means zero compromise in the function of the product.

ENVIRONMENT

Guarantee

The Camaro collection of luxury vinyl tiles has been developed to meet the highest technical specification of its product type. Ideal for all areas of the home, the products ensure high performance and optimum style. In addition, Camaro is suitable for moderate commercial applications such as light traffic areas within hotels, conference rooms and small offices.

Compared with many natural flooring options, Camaro will under normal conditions resist household stains and will not crack, chip or splinter. The manufacturers of Camaro are confident that their high quality products will provide many years of valuable service. All products purchased from the range are guaranteed for 10 years against normal wear and tear in the recommended environment, provided that they have been fitted correctly and maintained in accordance with the manufacturer’s instructions. Full terms and conditions of the guarantee are available on request from your flooring wholesaler or Polyflor Ltd.

Do:

- Install barrier mats at entrances to pick up grit and moisture. (Please note, some rubber-backed mats may discoulour the floor)
- Ensure your furniture is fitted with protective pads where necessary to prevent scratches.
- Use protective cups under heavy furniture to prevent indentation.
- Remove spillages as quickly as possible to reduce risk of staining and causing slip hazards.
- Always use clean equipment when maintaining your floor.
- Regularly trim pets claws as these can cause fine scratches.

Don’t:

- Use abrasive liquids or metal scouring pads as these can damage the floor.
- Clean the floor with solvents, caustic detergents, washing up liquids, soap powders, bleach, furniture polishes, petroleum based products, pine gels, stain removers or highly coloured products. Such products may make the floor slippery or cause permanent damage.
- Drag furniture with unprotected feet across the floor.

DO

Initial cleaning after your new floor has been installed:

- Avoid walking on the floor for at least 24 hours following completion of installation.
- Sweep or vacuum to prevent loose dirt or grit from scratching the floor.
- Polishing your floor can be beneficial to help prevent slight surface scratches and to provide further protection.

Day to day cleaning:

- Sweep or vacuum the floor to remove loose dirt, grit or dust.
- Use clean mops and neutral cleaning solutions to regularly clean your floor.
- Contact Polyflor for details of approved maintenance products.
- Dilute the floor cleanser to the manufacturer’s instructions.
- Mop the floor evenly.
- Collect any excess liquid in a mop bucket.
- Rinse the floor with clean water and allow to dry.

Regular cleaning is more beneficial to the floorcovering and is more cost effective than occasional heavy cleaning.

**The Polyurethane Reinforcement**
Thanks to a factory-applied polyurethane reinforcement, there is less work for you to do to care for your floor.

**The Wear Layer**
This transparent, extremely dense layer is hard-wearing and protects the decoration of the product. This allows the surface embossing to create a highly authentic effect.

**The Decoration Layer**
Each design has been specifically developed for Camaro by means of extensive trend research and the commissioning of experienced product designers.

**The Stabilisation Layer**
Improved dimensional stability is achieved by minimising the effect of surrounding physical properties (e.g. temperature fluctuations).

**The Load-Bearing Layer**
The basis for the long service life and high performance of Camaro.
