

JOB OPPORTUNITY

FULL TIME PROCESS TECHNOLOGIST WHITEFIELD MANCHESTER

JOB DESCRIPTION

The Role:

This position will be responsible for providing technical support to the manufacturing lines, leading projects to improve products, processes & quality standards. Working closely with the production, quality & R&D teams.

Duties:

- Providing technical support, assessing & resolving process issues.
- Improving & developing processes & SOPs.
- Assist with new product factory trials.
- Trial new technologies & materials for use onsite.
- Assist in gaining & maintaining product certifications.
- Auditing of processes & systems.

JOB TYPE

Hours: 35 hours / week

Monday to Thursday: 08:30-17:00 / Friday: 07:30-14:30.

Supplemental pay types:

Paid overtime, Attendance bonus scheme

EXPERIENCE

- A degree in Chemistry, Chemical Engineering, Polymer / Material Science, or a relevant field.
- Proven technical support or service experience in a manufacturing environment.
- A good understanding of Polymer or material chemistry.
- Experience with Colour Chemistry would be advantageous.
- Strong problem solving skills & a good eye for detail.
- Adaptable with the flexibility to work across laboratory & plant environments.
- Excellent communication skills.
